

CTSI-GLOBAL MANAGED SERVICES

Fully outsourced freight transportation management from CTSI-Global

CTSI-Global is devoted to optimizing your logistics strategy, while providing full visibility into the intricacies of your supply chain. Trusting a global leader with a proven track record that can handle every aspect of your freight operation enables you to focus on what matters most.

Seamless, Comprehensive, End-to-End Services

Carrier Management

CTSI-Global maintains strategic relationships with thousands of carriers—individually vetting them on everything from security to performance. Our unique reach and resources help us source the most reliable and cost-effective transportation for every single shipment.

Managed TMS

CTSI-Global will provide critical staff and resources to assist your team in managing all aspects of your transportation management system (TMS), from dispatching to appointment scheduling and beyond, saving you critical time and boosting your efficiency.

In-Transit Tracking

Never take a freight-related service call again. We'll handle tracking, reporting, and communication so you can focus on what matters to your business.

Inbound Freight Management

Managed services aren't just an outbound solution. CTSI-Global can also coordinate every aspect of your inbound supplier shipments, from routing to carrier selection, tracking, and P.O. allocation.

Freight Claim Management

Smarter processes translate to consistent, exception-free shipping. In the rare event of a lost or damaged freight shipment, we'll handle every aspect of the claim process with the carrier on your behalf.

International Consulting

CTSI-Global has been strategically positioned with operations around the globe for decades, and our expertise extends to customs issues, filing processes, international regulatory concerns, and more. A dedicated 24/7 account team can answer burning questions and respond quickly to any issues that arise.
